NOTE.—"Takahe" and "takahea," probably local variations of the name, are both used in literature: see Williams, "Dictionary" (1917), Beattie, "Maori Lore" (1945).—(Ed.)

SKETCH MAP OF THE UPPER TUNNEL BURN AND POINT BURN VALLEYS, showing ridge-tops (broken line), limestone bluffs, bush edges and location of Notornis pairs during 1949-50 breeding season. Panoramic photographs were taken from the points marked with circles and arrows. Notornis territories marked A—J (see text). Based on sketch map by officers of the Department of Internal Affairs. Scale (very roughly) one inch equals 140 chains.
