

[F. C. Kinsky

XLI — This young White-faced Heron (*Ardea novaehollandiae*) fell from a nest near Foxton in October, 1960, and was cared for at the Dominion Museum.

IF. C. Kinsky

XLII — Dr. Soper's excellent photographs of a Bittern (*Botaurus poiciloptilus*) at the nest were published in Notornis VIII, 45 & 46. In this photograph the full threat display is shown.

[F. C. Kinsky

XLIH — Close-up of a Bittern during threat display in a Southland garden, May 1961. Note the eyes. This bird had a slightly injured wing.
