

CORRIGENDUM

Volume 49, Number 1, March 2002

The bibliography in Gerry Clark's obituary (Tennyson 2002) did not attempt to provide a list of all the unpublished reports that he and his colleagues wrote. The inclusion of an unpublished report (Clark *et al.* 1998) was an oversight for which the compiler was not responsible. The report is one of the accounts of Clark's many trips to the New Zealand subantarctic lodged with the Southland Conservancy of the Department of Conservation (Invercargill). These reports provide a wealth of invaluable information for use by future researchers and managers.

The editor apologises for the non-alphabetical/chronological order in which Clark's publications appeared.
