clearly

A BIOLOGY OF BIRDS

Many members have still to purchase a copy of
this O.S.N.Z. publication.

It seems that some have been put off by the title.
While parts of the text may not interest all members,
most of it covers material not easily available and of
close interest to anyone interested in N.Z. birds and
in their conservation.

This book, a valuable companion to the *Field Guide*,
was reviewed in *Notornis*, June 1967, page 85.

It is available at only \$1.33 (including postage)
from P.O. Box 40-272, Upper Hutt.

NOTORNIS

In continuation of New Zealand Bird Notes

Volume XV, No. 3
